

News and Homework for week beginning 14th May

This week... A huge WELL DONE to year 6 for completing your SATs! Although a little nervous (which is normal and usually a good thing!) everyone put in maximum effort and tried their best. Each test was followed by juice, biscuits and mindfulness colouring as a time to wind down and relax. Thank you also to years 3, 5, Robins and Ducklings who were really considerate throughout, keeping noise to a minimum and working well on their own tasks in various places around the school.

In other news... During the afternoons, Owls took part in a number of science investigations and workshops. On Monday, we were joined by Ogden Science who ran a session on particle physics. We learned about the make-up of atoms, the experiments at Cern in Switzerland, and were amazed to discover just how small some of these particles are – so small you cannot even see them with a microscope! Next, we turned our attention to our end of year production. We really enjoyed reading through the script for the first time, learning the songs and auditioning for parts. In science, we were challenged to match a selection of fruits to each planet in our solar system, considering their relative size to one another; Mercury was a peppercorn whilst Jupiter was a watermelon! Finally, on Friday we played party games (what's the time Mr Wolf and human mannequins), cooked mini-pizza and cheese twists, and watched a movie at our class pyjama party.

Year 6, for the effort, determination and perseverance that they showed during their SATs. Well done – we are very proud of you!

Homework:

Please see below for homework this week. Remember to still log on and complete tasks on Mathletics, Spellodrome and Reading Eggs. Children should be reading regularly at home and have now been issued with a school reading book and reading log. Can you please complete their reading log to indicate when they have read at home. Older children (yr5 and 6) may read to themselves, then have a discussion with parents afterwards. Younger children (yr3 and 4) should read to an adult.

Spellings: Please see separate sheet for list of words to be learnt this term. Spellings to be learnt this week are **highlighted in orange**. There will be a review in class each Friday.

Maths: Please practise your 'Bonds' and 'Badges' (times tables).

Homework is to be handed in on Wednesday 6th June.

Please complete the homework below over the next two weeks. Homework is not due in until the first Wednesday back after half term 😊

| Homework | |
|----------|---|
| Bronze | Being active is good for your body and mind. Create a '10 ways to get active' poster to encourage a key stage 1 child to become more active. |
| Silver | Research how being active can help children to stay healthy, focused and increase positivity. Produce a poster to show what you have found out. |
| Gold | Research how being active can help children to stay healthy, focused and increase positivity. Use your research to create your own playground game and teach a friend. Take some photos of you playing your game and write a brief explanation. |

| Pupil Feedback | Parent Feedback | Teacher Feedback |
|----------------|---|------------------|
| | How much support did your child need? None <input type="checkbox"/> A little <input type="checkbox"/> Lots <input type="checkbox"/> Comment: | |
